About Me

SERIAL MULTI-TASKER, LENS JUGGLER, FLORAL ARRANGER

PHOTOGRAPHER

PERSON HIDING BEHIND THE BIG CAMERA

After figuring out early on that I much prefer being behind the camera than in front of it, I now have the perfect vantage point from which to share my view of the captured moment with excited newlyweds during one of the most joyous celebrations in their lives;
The Wedding!

Spending much of my life growing up in different countries and developing the travel bug at a young age made sure I appreciated the way a camera can produce a lasting memory and the school darkroom was where I became fascinated with seeing things in a different light.

Since then, I returned to Western Australia to complete a double major in Journalism and Photomedia, which lead me back overseas to further studies and work as a photojournalist in Hong Kong and Cambodia...
Then I discovered life in gorgeous Margaret River...
Which is where you come in.

I enjoy making new friends, keeping my work-a-holic brain busy with photography and design, trying out new things, living in a picturesque region, nurturing a creative outlet and I work best under pressure; all of which is why I love the intensity of photographing weddings while working with amazing clients and I wouldn't have it any other way.

As a newlywed who had a destination wedding herself, I'm grateful for the experience of coordinating one of life's most special days in a way that has helped me to relate to my clients, many of whom are entrusting me from out of town, interstate and overseas and I can't thank you enough. Congratulations on your engagement and happy countdown to the big day!

PS.
Yes the musician in the top polaroid is wearing lederhosen! I married my wonderful Austrian husband in his hometown, another beautiful wine region...

My Style

EDITORIAL VINTAGE ROMANCE LAUGHTER QUIRKY

LOVES YOUR STYLE

VIVID UNIQUE INSPIRED THOUGHTFUL HANDMADE

It's hard to find one way of describing the way I take photos. Every subject is different, every couple's dynamics are unique, every situation changes and each day is a new one.

I see every set of images as a creative narrative and hence the 'fine art' in Margaret River Fine Art Photography. My developing style's about seeing and using my influences from journalism, an eye for bokeh [fancy term for the blur in photos], love of all things abstract combined with characteristics that catch my eye like the warm yellow colours of old polaroids and the contrast of black and white film.

The 'fine art' also stands for the quality of the final product. I love to exhibit my photomedia work and will only produce my wedding commissions with the same fine art workflow and quality products.

Leather Albums

All of our albums are designed and made to order using hand-sewn techniques and the highest quality photographic papers and products available internationally. They are presented with full-bleed double-page spreads and created with a love for both the contemporary and fine art.

You choose your favourite images and then the layout is designed inhouse to suit your choice of album so that you can view the completed layout before it is produced. After confirming your layout, allow at least 6-8 weeks for your custom album to arrive from the US.

Our luxurious leather albums come in a range of colours including black, brown, green, white, pink and even 'red-light' red. Page layouts are made with full-bleed photographic prints and mounted on a 2mm thick page core.

Couture Albums

Where possible we adopt environmentally-conscious practices throughout the day to day running of our studio from utilising green electricity, to choosing recycled packaging all the while maintaining the highest possible standards for all our products. We are proud to extend this philosophy to include an album range with options that include renewable energy, charity donations, organic material and recycled fine-art papers.

Our Couture albums are a luxury, one-of-a-kind, handmade coffee-table book for your digital photos. Old binding techniques coupled with the latest technology in printing are used to create stunning, one of a kind, heirloom books.

The beautiful fabrics from around the world used in the Couture range reflect a high standard of artistry and quality to appeal to someone after a more contemporary album. Matte pages are printed full-bleed and hand sewn with French silk to the custom covers. Additional options include a matching sheath and name embossing.

NB. Albums English, French, German, New York, Himalayan, Japanese & Earth are included in the a la carte album pricing and wedding photography collections. Additional charges of \$200-\$800 apply for albums Indian, Swiss & Spanish.

FAQs and Fineprint

BOOKINGS are recommended at least 6-12 months in advance and available from October through May for weddings over summer in Margaret River. A signed contract and non-refundable deposit of \$800 secures coverage on your chosen date with the balance payment due 30 days before the wedding.

OVERTIME is no problem and additional coverage is charged at the usual rate of \$250/hour including editing and licensing of additional images. If you already know that you will need more than the included time in the packages we will factor it ahead into your running schedule. If coverage extends over a meal time, a vendor meal would be much appreciated.

POST PRODUCTION of the images involves the individual editing and RAW colour conversion of the digital files and my creativity in Photoshop. Allow for a 5 to 8 week turnaround depending on amount of images and workload.

ELOPEMENT packages are also available for booking within 3 to 6 months ahead of your ceremony date, please email with more details if you would like a custom quote for your special day.

PRINTING of fine art prints is something we love to do for you. Or you are welcome to order through your own professional lab as all wedding packages include high resolution images to print from. Images are profiled to Universal Imaging Guidelines then saved onto an archival DVD and displayed in a custom-made folio.

We of course recommend **ONLY** getting prints done through us or at another professional lab (no Kmart prints please!). If you order through us, you are assured of receiving the highest quality prints made in a colour-controlled lab with premium photo papers and archival inks tested and made to last over 75 years - some brag over 200 years.

As well as the high resolution files, we make you smaller low resolution copies that have been profiled for optimum viewing on the web. Use these ones for Facebook, email and sharing with your family and friends around the world. Spread the photo-love!

COPYRIGHT to all images is maintained by Margaret River Fine Art Photography and you are granted license to reproduce them for your personal use. Get them up on your wall or in a digital frame and out of the computer! Basically, you only can't sell, alter or redistribute the images. Just let us know if you would like help submitting them to a blog, magazine or competition.
